**CDPHE-WQCD Regulated Systems Use Only**

PWSID: CO0       Chlorine Residual. \_\_\_\_\_ mg/L Sampling Point ID: \_\_\_\_\_  
Purpose:     Routine Distribution         Special Purpose         Repeat  
Responsible Party Name : \_\_\_\_\_ Phone: \_\_\_\_\_

<b>CHECK ANALYSIS REQUESTED: (INCLUDE FEE PAYABLE TO PDPHE)</b>	<b><u>Fee</u></b>
<input type="checkbox"/> Total coliform with E. coli (presence/absence) for routine bacteria potability	\$20.00
<input type="checkbox"/> Total coliform with E. coli (enumerated) when levels are required (discharge, treatment)	\$22.00

#### Sampling Procedure Information:

- Analysis is for coliform bacteria only; no chemical analysis will be performed. For chemistry laboratories, please visit [colorado.gov/pacific/cdphe/lab/generalinfo](http://colorado.gov/pacific/cdphe/lab/generalinfo)
- Use only the laboratory sterilized bottle provided with sodium thiosulfate additive. The sodium thiosulfate additive may appear as a clear liquid or white powdery substance. Please do not rinse out the bottle before taking the sample.
- Keep bottle closed until sample is taken. Be careful not to touch inside of bottle or lid.
- Try to avoid taking samples from the following: swinging taps, taps with aerators, outside taps, hot water taps. Clean or flame tap before running water.
- Flush pipes by letting water run 3-5 minutes before taking sample.
- Fill bottle to 100 mL line. Be sure there is a 1-inch headspace between water level and top of bottle
