March 18, 2016

To: PACOG
Mr. Scott Hobson
211 E. D Street.
Pueblo, Colorado 81003
(719) 553-2244 FAX (719) 549-2359

Dear Mr. Hobson,

CDOT Region 2 requests a TIP amendment for inclusion in the PACOG 2017-2020 Transportation Improvement Program (TIP). CDOT region 2 is asking that the below listed projects be included in the respective funding pool areas where projects have been selected through the public process we just concluded in March. These projects need to be included in the new 2017 -202 PACOG TIP. The below listed projects reflect the CDOT allocations to the PPACG area for the 2020 fiscal year time frame. The amendment encompasses the following actions:

During the public process for the development of the 2017 to 2020 Statewide Transportation Improvement Plan (STIP), the CDOT Regional Priority funds and the FASTER safety funds were discussed with each Transportation planning region and each MPO in Region 2. The final project allocations to fiscal year 2020 have been determined through a joint CDOT Region 2 TPR meeting held on March 8, 2016 and the final lists were distributed at that time. CDOT Region 2 is requesting that the new STIP projects be incorporated into the PACOG 2017-2020 TIP for consideration by the respective committees and the Board of Directors in the April through June 2016 time frame.

SPB7004.999: Us 50A West - widening: \$6,000,000 FASTER in 2020. This funding provides a construction contribution to the project already underway.

SPB3865.999: I-25Corridor Management and Design: \$250,000 dollars of RPP in 2020programmed in the I-25 through Pueblo area for design efforts in the corridor.

Please let me know if you have any additional questions about the proposed TIP modification action. You may reach me at 719-546-5748. These changes should bring the PACOG 2017 to 2020 TIP up to current CDOT planned and expected funding streams and should reflect current projects selection results.

Sincerely,

Wendy Pettit
CDOT Region 2 Planning

Pueblo CO 81001-2915

June 28, 2016

Mr. John Adams
PPACG
15 S. 7th Street
Colorado Springs, Co 80905

Dear Mr. Adams,

CDOT Region 2 requests a TIP amendment to the PPACG 2017-2020 Transportation Improvement Program (TIP). The amendment encompasses the following actions from PACOG. The CDOT and FHWA procedures for funding and billing projects requires action from PACOG for projects that were not totally obligated in the prior fiscal year. A procedural change to budgeting projects was implemented last fiscal year with the update of FEMIS, the FHWA software that funds federal aid projects. All CDOT regions have been asked to roll forward the funding for the unobligated projects in our system and to roll forward the projects that were funded and not started in fiscal year 2016. To budget federal funding for awarded projects the funding must be in the current TIP if the project is in an MPO area and all projects are referenced in the STIP.

The projects started but not obligated are from fiscal years 2014 to 2015. These projects will need to be rolled forward in the current fiscal year of the STIP and TIP for future rebudgeting and obligation. At the time the project is within 90 days of needing to have the funds back in the project, the CDOT project manager will send a budget action request to the CDOT Region 2 Business Office for that process to be completed so that FHWA can obligate the funding for the project needs. All local agency projects at the end of the state fiscal year that still have unobligated balances or that have funding that has not been budgeted will need to be rolled forward in the STIP and TIP to the next fiscal year.

PACOG has 2 started but not obligated projects and 2 projects that did not go to construction in fiscal year 2016. They are as follows:

Not Obligated:

Greenhorn Bridge	Federal Bridge off \$1,333,360	Local Match \$333,340
Arkansas River Trail 4	Federal TAP \$616,494	Local Match \$154,124

Did not go to construction:

Pueblo West - Industrial to Platteville	Federal TAP \$400,000	Local Match \$100,000
Pueblo West - Spaulding to west McCulloch	Federal TAP \$457,107	Local Match \$114,277

Program Development:

CDOT is in the process of creating a Program Development plan.

The Development Program is an inventory of major investment needs based on input from CDOT Regions and planning partners. The Development Program captures the priorities identified through the transportation planning process to support the identification and prioritization of major investment needs for future planning. The major investment needs in the Development Program are identified through a statewide inventory of needs documented in planning and development studies, including Regional Transportation Plans and Metropolitan Planning Organization (MPO) Transportation Plans, and through additional input from CDOT staff and planning partners.

What does the Development Program include?

Sincerely,

Wendy Pettit
CDOT Region 2 Planning

MEMORANDUM

TO: Members of the PACOG Board

FROM: Scott Hobson, City of Pueblo, Assistant City Manager for Community Investment/PACOG MPO Manager

DATE: December 5, 2016

SUBJ: **Additional Agenda Item for December 8, 2016 PACOG Board Meeting**

Administrative Modification to the FY 2017-2020 Transportation Improvement Program increasing local overmatch for the project.

PROJECT:	SR25079.038 Northern Avenue Streetscape Ph II	
Federal Funds:	Transportation Alternative Program	\$350,000.00
Local Funds 20% Match:		\$87,500.00
Local Over Match:		<u>\$195,388.82</u>
Total Project Cost:		\$632,888.82

Project Limits: Northern Avenue between Lehigh/Hollywood Blvd. and Prairie Ave.

Project Description: Project will enhance the appearance of the existing hard-surface medians by removing the asphalt and adding landscaping and will enhance the existing bicycle and pedestrian trails on both sides of Northern Avenue by replacing the existing asphalt trails with concrete.
