### Transportation Goals

#### Goals and Objectives

- **Safety and Efficiency**: Reduce the number of serious and fatal crashes.
- **Funding**: Secure funding for transportation projects.
- **Public Involvement**: Increase public involvement in transportation planning and decision-making.
- **Sustainability**: Promote sustainable transportation options.

#### Mobility

- **Transportation Network**: Improve the transportation network to provide reliable and efficient travel options.
- **Quality of Life**: Enhance the quality of life by reducing congestion and improving safety.

#### Land Use

- **Transportation System**: Ensure that transportation planning is integrated with land use planning.
- **Economic Development**: Support economic development by providing efficient transportation options.

#### Implementation Techniques

- **Urban Mixed Use**: Establish a mixed-use development pattern that maximizes land use efficiency and provides a variety of employment and housing options.
- **Urban Residential**: Develop an urban residential pattern that provides a variety of housing options and supports a walkable community.
- **Urban Commercial Mixed Use**: Establish a mixed-use development pattern that maximizes land use efficiency and provides a variety of employment and housing options.
- **Suburban Residential**: Develop a suburban residential pattern that provides a variety of housing options and supports a walkable community.
- **Country Residential**: Develop a country residential pattern that provides a variety of housing options and supports a walkable community.

#### Special Development Areas

- **Urban Mixed Use**: Establish a mixed-use development pattern that maximizes land use efficiency and provides a variety of employment and housing options.
- **Urban Residential**: Develop an urban residential pattern that provides a variety of housing options and supports a walkable community.
- **Urban Commercial Mixed Use**: Establish a mixed-use development pattern that maximizes land use efficiency and provides a variety of employment and housing options.
- **Suburban Residential**: Develop a suburban residential pattern that provides a variety of housing options and supports a walkable community.
- **Country Residential**: Develop a country residential pattern that provides a variety of housing options and supports a walkable community.
