

Pueblo CTC Youth Active Transportation Survey

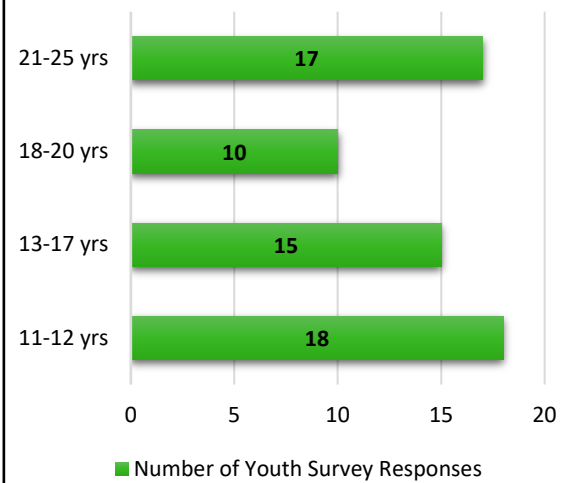

Pueblo Communities That Care distributed and analyzed a youth active transportation survey in June 2020 with the ultimate goal to increase accessibility to prosocial spaces by reducing barriers related to active transportation. Active transportation is defined as a means of getting around that is powered by human energy.

How do you usually get to the places you hang out?

(age group in order as they are in legend)

Number of Youth Survey Responses (60 Total)

Zip Codes

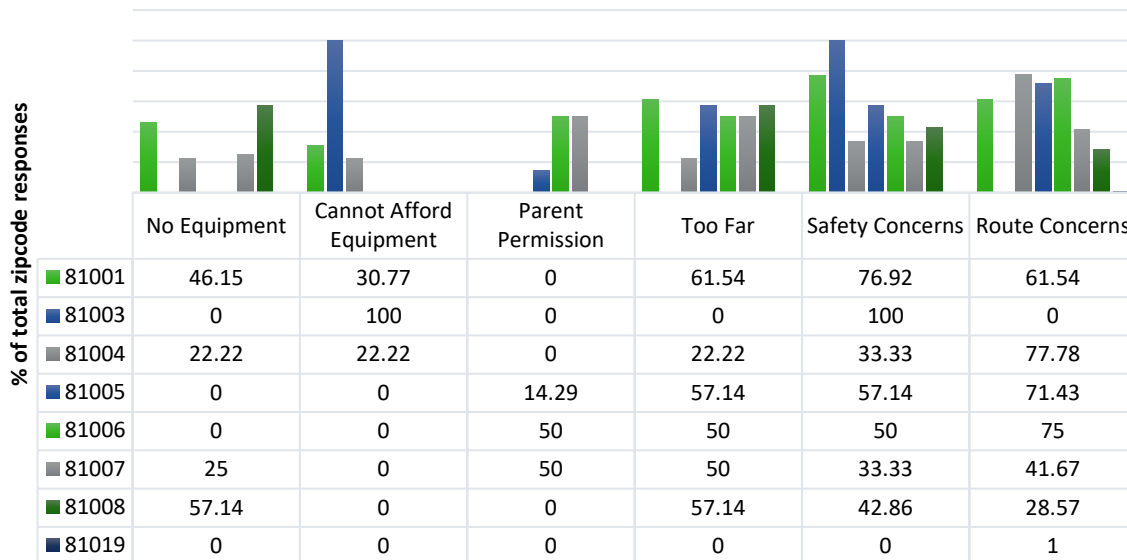

What makes it difficult to use active transportation to get to places?

If cost of the activity was not a concern, where would you use active transportation to get to? (by age group; in youth prioritized order)

11-12	13-17	18-20	21-25
<ul style="list-style-type: none"> School Skate park The park Libraries To the store Swimming pools 	<ul style="list-style-type: none"> School Friend's houses Parks/Rec locations Coffee shops The Reservoir 	<ul style="list-style-type: none"> Mall Downtown Work Record shops School Bowling 	<ul style="list-style-type: none"> Work Pueblo West Grocery store Gym Leisure (friends, hiking, The Riverwalk)

Summary of Zip Codes and Barriers

Overall route and safety concerns were the main barrier in Pueblo County

Would you be interested in using active transportation more?
