

**December 28, 2020 – FOR IMMEDIATE RELEASE**

Pueblo Area Council of Governments (PACOG) has completed the draft 2045 Long Range Transportation Plan (LRTP) and it is ready for public review and comment. The 2045 LRTP update is called **PACOG Moves the Region 2045**. You can view the draft document on the project website as well as a summary of public comments we received from the online survey.

PACOG is seeking input from the public on the draft 2045 LRTP and the included list of priority transportation projects that have been identified to meet current and future needs of the region.

The 2045 LRTP was developed through technical analysis supported by public and stakeholder input. The 2045 LRTP builds upon previous plans to incorporate all types of travel including driving, biking, walking, public transportation, and freight. The 2045 LRTP website was the portal for the online survey. The draft LRTP and a summary of survey results are now posted on the website for public review and comment.

For more information on the PACOG *Moves the Region* 2045 plan or to provide comments, the public can visit the project website at [www.pacogmovestheregion-2045.com/](http://www.pacogmovestheregion-2045.com/). The public can also engage with PACOG's social media sites at <http://www.facebook.com/pacogmpo>, <https://twitter.com/PacogMPO> or <http://www.instagram.com/pacogmpo/>.
