I. Non-Discrimination Policy Statement

It is the policy of the Pueblo Area Council of Governments (PACOG) that no person shall, on the grounds of race, color, national origin, sex, disability, or age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination in any operation of PACOG as provided by Title VI of the Civil Rights Act of 1964 and related statutes.

This policy applies to all operations of PACOG, including its contractors and anyone who acts on behalf of PACOG. This policy also applies to the operations of any department or agency to which PACOG extends federal financial assistance. Federal financial assistance includes grants, training, use of equipment, donations of surplus property, and other assistance.

Prohibited discrimination may be intentional or unintentional. Seemingly neutral acts that have disparate impacts on individuals of a protected group and lack a substantial legitimate justification are a form of prohibited discrimination. Harassment and retaliation are also prohibited forms of discrimination.

Examples of prohibited types of discrimination based on race, color, national origin, sex, disability, or age include:

- Denial to an individual any service, financial aid, or other benefit;
- Distinctions in the quality, quantity, or way a benefit is provided;
- Segregation or separate treatment;
- Restriction in the enjoyment of any advantages, privileges, or other benefits provided;
- Discrimination in any activities related to highway and infrastructure or facility built or repaired; and
- Discrimination in employment.

Title VI compliance is a condition of receipt of federal funds. The Title VI Coordinator is authorized to ensure compliance with this policy, Title VI of the Civil Rights Act of 1964, 42 U.S.C § 2000d and related statutes, and the requirements of 23 Code of Federal Regulation (CFR) pt. 200 and 49 CFR pt. 21.

Mr. Mark Aliff, Chairperson, Pueblo Area Council of Governments Date

Review Procedures for Ensuring Non-Discrimination

PACOG completes environmental justice (EJ) evaluations and assessments for all MPO program areas using demographic data from the U.S. Census Bureau to identify concentrations of minority and low-income populations. PACOG regularly gathers and maintains the following EJ demographic information:

- GIS mapping of EJ areas and other social, economic, and environmental data elements;
- Pueblo County poverty and minority levels based on regional averages; and
- Additional relevant U.S. Census Bureau demographic.

PACOG staff reviews data to identify areas where the targeted populations are significantly higher than the county average and maps target areas in context with capacity expansion projects, maintenance projects, and transportation alternative projects to facilitate EJ impact analysis. PACOG staff completes a subjective analysis for each project, including an environmental justice analysis matrix which considers potential EJ impacts of projects. Impacts PACOG considers when determining potential significant negative EJ impacts include

Environmental Justice Evaluation and Procedures

An environmental justice evaluation and assessment is completed for all MPO TIP projects. Demographic data from the Census is utilized in identifying concentrations of minority and low-income populations. These areas are then mapped, along with other social, economic, and environmental factors using GIS software. Poverty and minority levels are identified in the county based on regional averages. Additional demographic information is also compiled from the Census and the American Community Survey Census data. Data is then reviewed to identify areas where the targeted populations are significantly higher than the county average. Target areas are then mapped along with capacity expansion projects, maintenance projects, and transportation alternative projects to aid in an impact analysis. Subjective analysis for each project is undergone and includes completing an environmental justice analysis matrix which considers potential impacts that a project could have on an identified environmental justice area. The following impacts are considered in determining if projects will significantly have a negative impact on targeted populations:

- Bodily impairment, infirmity, illness or death
- Air, noise, and water pollution and soil contamination
- Destruction or disruption of man-made or natural resources
- Destruction or diminution of aesthetic values
- Destruction or disruption of community cohesion
- Destruction or disruption of a community's economic vitality
- Destruction or disruption of the availability of public and private facilities and services

- Vibration
- Adverse employment effects
- Displacement of persons, businesses, farms or nonprofit organizations
- Increased traffic congestion
- Isolation
- Exclusion or separation of minority or low-income individuals within a given community or from the broader community
- The denial of, reduction in, or significant delay in the receipt of, benefits of DOT programs, policies or activities
