Pueblo River Trails Extension Master Plan Update

October 12, 2021

Board of County Commissioners Work Session
• Update of the 1998 Pueblo River Trails Master Plan sponsored by CDOT
• Goal of the updated 20-year plan is to have a guide in place to inform future trail, expansion, access, and connectivity as the community grows
• Plan has been reviewed and accepted by CDOT
• Current planning process began in 2018 with public outreach and stakeholder engagement including four public open houses
• This was a planning effort to identify and prioritized trail connections that are suitable for potential 1A funding
• A high-level planning recommendation has been made but there is still a lot of future work to develop a suitable first phase that ensures community access, connectivity, and safety.
1. La Crosse Avenue Connector Trail (On-Street Bike Lanes)
2. Arkansas River Trail Extension (Off-Street Trail)
3. Aspen Street/ Circle Connection (On-Street Bike Lanes)
4. Salt Creek Trail (Off-Street Trail)
5. Bessemer Ditch Trail (Off- Street Trail)
6. County Farm Road (On-Street Bike Lanes)
7. Everett Road (On-Street Bike ‘Sharrows’)

Prioritized Trail Connections
Thank you!
