

On-site Wastewater Treatment System Commercial Permit Application

State and county laws require that a permit be issued prior to constructing or making repairs to an on-site wastewater treatment system (OWTS). Any change in plans or specifications of the OWTS after a permit has been issued must have written approval from the Pueblo Department of Public Health and Environment. An engineer design is required for all commercial systems. **Fees are non-refundable. An accurate plot plan as described in permit instructions must accompany this application.**
Email applications to: EHEPapplications@pueblocounty.us or submit an electronic application via our online portal at <https://myhealthdepartment.com/pueblo/login>.
